August 2025

**"We should not give up and we should not allow the problem to defeat
us."**

Dr. A.P.J. Abdul Kalam

Dear Parents,

The month of August was a lively and memorable one for our Grade 4 students at Dr. Abdul Kalam School. As the children settled into the rhythm of the new term, classrooms were filled with curiosity, energy, and purposeful learning. Each subject brought with it new challenges, and our students embraced them with enthusiasm and growing confidence.

In English, the children deepened their comprehension and vocabulary skills through engaging lessons such as “The Raft” and “Memoirs of a Hamster.” Reading sessions sparked thoughtful discussions, while spell bee tests and reading assessments encouraged them to sharpen accuracy and fluency. Creative activities like drawing animals and writing about them allowed students to blend imagination with language practice. Meanwhile, in Mathematics, subtraction became the central focus. With exercises, workouts, and group quizzes, students not only practiced sums but also enjoyed the thrill of Math Bees and quick-fire table challenges. Their problem-solving skills grew stronger through teamwork and healthy competition.

Our Environmental Studies lessons were equally enriching. The children explored plant adaptations and the fascinating role of leaves as the “food factories” of plants. Hands-on science lab activities, including drawing and labeling plant parts and experimenting with models, made learning interactive and memorable. In Social Studies, journeys through India’s landscapes—the northern mountains, western deserts, and southern plateaus—helped children connect geography to culture, while Hindi and Telugu classes nurtured expression through stories, poems, and oral recitations. Language learning was reinforced with reading tests, spelling activities, and vocabulary building, all of which strengthened confidence in both mother tongue and second languages.

Beyond academics, August was filled with moments of creativity and celebration. The Independence Day assembly was a highlight, where students expressed their patriotism through songs, speeches, and colorful displays. Classroom activities like “Just a Minute” speaking challenges, fun drawing sessions, and even emoji-based storytelling in ESL added joy to daily routines. These experiences reminded us that learning is not only about knowledge, but also about confidence, creativity, and connection.

As we look back on August, we feel proud of the steady progress our students have made. Their growing skills,

curiosity, and joyful participation promise a fruitful journey ahead. Thank you, dear parents, for your constant encouragement and partnership in making learning meaningful for every child.

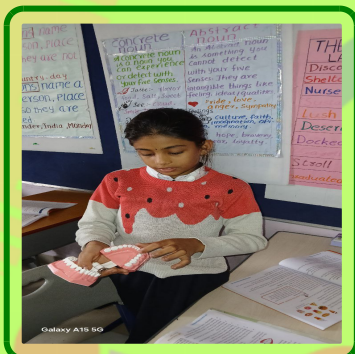

Warm regards,
Team@AKS
