August 2025

"We should not give up and we should not allow the problem to defeat us."

Dr. A.P.J. Abdul Kalam

Dear Parents,

The month of August was filled with joyful learning and memorable experiences for our little PP1 learners. Each day brought with it new opportunities to grow, discover, and celebrate together. The children showed great enthusiasm as they explored both numeracy and literacy, steadily building their confidence with numbers, letters, and sounds. Through guided practice in class and follow-up work at home, they strengthened their ability to recognize patterns, form letters, and develop early problem-solving skills. Their notebooks became a reflection of their progress, and it was heartwarming to see the pride they felt in completing each task.

Our literacy periods were especially lively, as the children engaged in playful activities that connected learning with movement. Blocks play and clipping exercises encouraged them to match letters, while mapping uppercase to lowercase letters helped reinforce recognition in a fun and interactive way. In numeracy, the children delighted in jumping on colorful number mats, making learning a physical and joyful adventure. These hands-on experiences not only reinforced concepts but also nurtured collaboration and social confidence among the students.

The theme of the month centered on "Sense Organs," with a special focus on touch. Children explored the textures of various objects, discovering how our sense of touch helps us understand the world around us. Their curiosity and active participation made the activity both engaging and meaningful.

August also gave us the chance to celebrate Independence Day with great pride. The children came dressed in the colors of our national flag and participated in simple craft and classroom activities that highlighted the spirit of unity and freedom. The sense of celebration filled the school with energy, and the children carried home both joy and a deeper appreciation for this special occasion.

Overall, August was a month of steady academic progress, creative exploration, and spirited celebration. We look forward to carrying this enthusiasm into September and continuing the journey of joyful learning together.

Warm regards,

AKS Bytes August 2025

Literacy Blocks Play Clipping activity

Students at Dr. Abdul Kalam School took part in the Literacy Blocks Play Clipping activity, where they practiced building words in a playful way. The session encouraged teamwork and gave children a chance to enjoy learning through hands-on exploration.
