August 2025

"We should not give up and we should not allow the problem to defeat us."

Dr. A.P.J. Abdul Kalam

Dear Parents,

August at Dr. Abdul Kalam School was a month filled with energy, discovery, and joyful learning for our PP2 children. Each day brought new opportunities to strengthen skills, celebrate friendships, and explore the world around them. In literacy, the children deepened their confidence with sight words and practiced blending sounds to build simple sentences. They enjoyed reading short passages together and took pride in identifying familiar words during class activities. Their growing enthusiasm for stories and rhymes shone through in both classroom participation and the little reading readiness checks we carried out.

Numeracy lessons were equally vibrant. The children worked steadily on number recognition, counting, and patterns, and they began to apply their understanding through playful exercises such as block play and group counting games. Activities like “counting by tens” were met with excitement, helping students see numbers as both fun and meaningful. In language classes, the children continued building their foundation in Hindi and Telugu, practicing new letters and sounds with careful tracing and joyful recitation. These sessions encouraged focus and fine motor skills while also connecting them to the richness of language and culture.

Our theme-based activities gave the children a chance to connect learning to their lives at home. They explored the concepts of “My Home” and “My Family,” creating simple projects and sharing their ideas with peers. These discussions nurtured a sense of belonging and helped them appreciate the importance of family values. The highlight of the month was our Independence Day celebration, where the children dressed in bright colors, sang patriotic songs, and participated in festive activities. Their excitement and pride in being part of the event was heartwarming to witness.

To encourage self-expression, we also held a “Show and Tell” session, where each child brought forward an item of personal significance and spoke about it with growing confidence. These moments not only built communication skills but also created a stronger classroom community.

August was a month of steady progress and happy memories, and we are proud of how our PP2 learners embraced every challenge with curiosity and joy. We look forward to more learning adventures together in September.
