July 2025

"You have to dream before your dreams can come true."

Dr. A.P.J. Abdul Kalam

Dear Parents,

We hope this newsletter finds you well and filled with joy as we dive into the exciting month of July with our Grade 1 students. The classrooms are buzzing with energy as our little ones immerse themselves in a myriad of learning experiences and activities.

In Environmental Studies (EVS), our students are exploring the world around them through lessons on Myself, Family, and Neighbourhood. They are diligently completing their workbooks, oral tests, and preparing for exit ticket tests to showcase their understanding of the topics. From learning about their sense organs to understanding the importance of living things, our students are actively engaged in hands-on learning experiences.

In Hindi and Telugu, our students are mastering the alphabets, reading letters with pictures, and preparing for oral and exit tests. The students are also honing their language skills by completing assigned tasks in classwork and notebooks.

Mathematics is an exciting subject for our Grade 1 students as they delve into numbers up to 100, ascending and descending orders, and number names. They are diligently completing their math workbooks, preparing for exit ticket tests, and engaging in math lab activities to enhance their understanding of concepts.

English language arts is a vibrant subject for our students as they complete worksheets, prepare for spelling tests, and engage in ESL activities. They are also delving into the world of literature through stories like "Snail Mail" and enhancing their vocabulary skills through various activities.

In addition to academic pursuits, our students are actively engaged in various activities such as art and craft, physical education, science lab experiments, and ESL activities. From cone drills to ring catching, our students are developing their physical and cognitive skills in a fun and interactive manner.

As we journey through the month of July, we invite you to join us in celebrating the achievements and growth of our Grade 1 students. Together, we can continue to nurture their curiosity, creativity, and love for learning.

English Lesson: Snail Mail (The Children Are Observing and learning about the Snail)

In our English lesson, the children are exploring the fascinating world of snails and discovering the joy of sending letters by mail. During our English lesson, the children are diving into the world of snails, observing their unique characteristics and learning how to send letters the old-fashioned way. In our classroom, the children are marveling at snails and delighting in the art of sending mail, combining nature observation with old-school communication methods.

AKS Celebrations

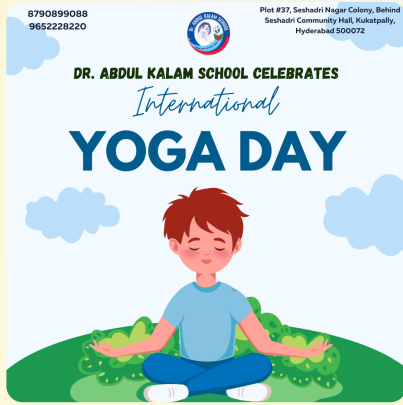

First day of school

We are thrilled to welcome you and your children to the start of an exciting new academic year at Dr. Abdul Kalam School. Our dedicated team of educators has worked tirelessly to create a nurturing and stimulating environment that will help your children thrive. We are committed to supporting each student in reaching their full potential, and we look forward to a year of discovery and achievement.

International Yoga Day

On International Day of Yoga, celebrated annually on June 21st, our school organized a vibrant event where both children and teachers enthusiastically participated in various yoga asanas. The children eagerly engaged in practicing different poses such as the Tree Pose, Warrior Pose, and Downward-Facing Dog, while the teachers supported and joined in the activities. The event fostered a sense of community and well-being, as participants of all ages enjoyed the physical, mental, and spiritual benefits of yoga. The joy and energy were palpable, making it a memorable celebration of health and harmony.
